

Name: _____ Period: _____ Date: _____

Johnny Tremain—Part II, Hand Activity

In an effort to try to understand how Johnny's accident has impacted his life, tonight you will mimic his hand injury. Pick three activities that you participate in tonight and for each, spend some time pressing your thumb and index finger of your dominant hand together. For example, try playing your Xbox without your thumb, or try brushing your teeth without it. Do not let this activity interfere with any responsibility you have. While you're doing this, think about how your hand is impacting your ability to perform daily tasks. How are you feeling? Is it frustrating?

Activity 1: _____

Activity 2: _____

Activity 3: _____

Now, write 3-4 sentences about how having your hand like this has made you feel. How could an injury like this affect the rest of your life?
