### **Creating a Holocaust Timeline**

A large part of understanding the Holocaust is learning about and being able to reference the events that took place from 1933-1945. Each of you will be responsible for creating a timeline of your own on EE or Google Drive and uploading it to Google Drive. You will use these resources to chart and explain important events from this time period.

In addition to completing the timeline, you will be given one specific event or person that you will research further in order to present and teach the class. This specific event will be part of your timeline, but you will need to include a picture and a paragraph long description of the event/person/topic.

You will choose 25 total things to research and place on a timeline from the second page of this document. You will need to choose at least two from each section of the list and everyone will need to include the Nuremberg International Military Tribunal on their timeline. For each thing on the timeline, you need to write 1-2 sentences **IN YOUR OWN WORDS** describing the event/topic/person. One of the 25 items you research will be your specific event to present to the class.

For research purposes, you will be using an compilation of websites that I have set up for you. This can be accessed on my website using a link in the Reading/Writing Lab Section. You will use mostly these sites for your research.

You will have three weeks to complete this research, timeline, and prepare to teach the class your specific event.
